

Otion

It saddens me that you would abandon the cause for some short term gain upon Orin Rakatha. I had thought that you had joined us in body, mind and spirit and yet see that it is not so. Your previous colleagues are destined to lose to the Free Towers Pact, as well you know, or suspect. Our cause however will endure.

If you are bound to this path then at least some of what you do can aid us. Evidence of the first Cataclysm is upon Orin Rakatha if you know where to look, less so than here obviously. Convince the other two. Do what you can.
