

Information

A stasured member of the Grey School may take the title of Wizard.

- Eminent Sorcerer: Giles (Air Elf)

Background

Grey School Wizards, more commonly referred to as Warlocks, are almost always to be found fighting alongside the warriors, using their spells to bolster their own fighting abilities. Grey magic is drawn from the Element of Metal and specialises in spells that increase fighting strength and physical endurance, though it has few spells that are cast directly at an enemy. At higher levels users of grey magic are often able to protect themselves greatly against metal weapons, become as strong as a warrior or strike devastating blows.
